Delete button
(To delete the scanning contents)

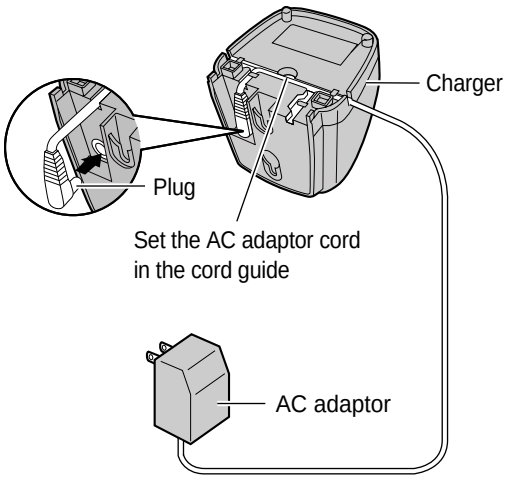
To start or stop scanning

Resolution switch

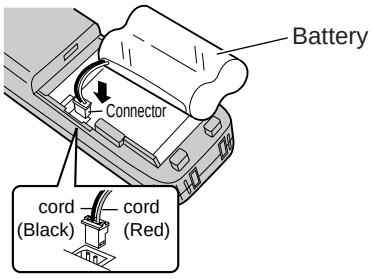
Scanning width switch

Charge the Handset Battery

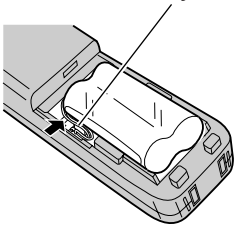
1 Connect AC adaptor to the Charger.

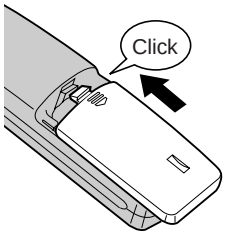


2 Connect the battery to the Handset.

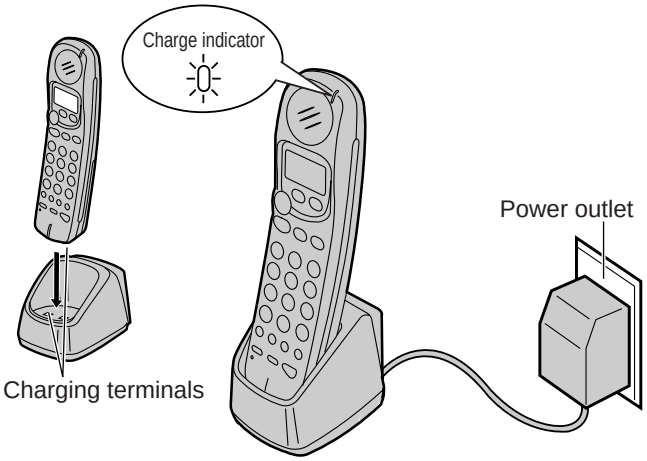


Put the cord away near the battery



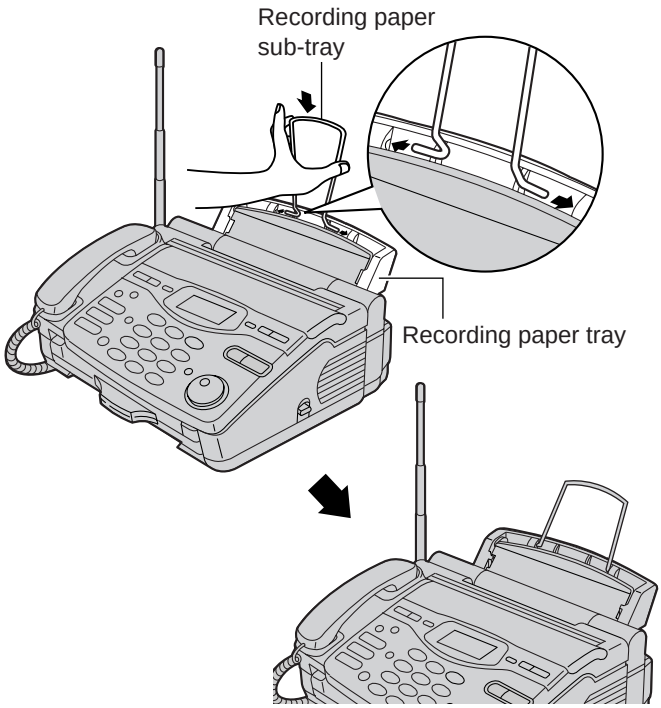


3 Charge the Handset Battery.

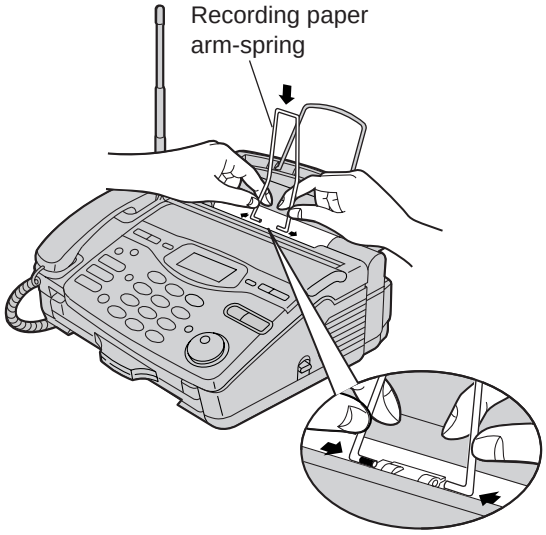


Insert the Recording paper sub-tray and Recording paper arm-spring in the main unit

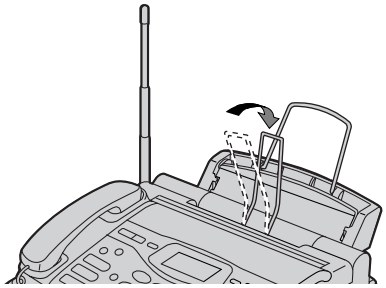
1 Insert the Recording paper sub-tray.



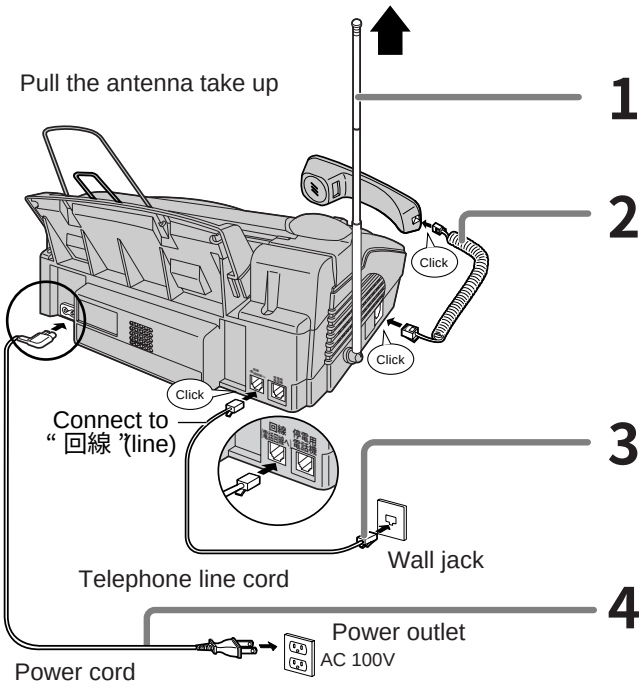
2 Insert the Recording paper arm-spring.



3 Throw down the Recording paper arm-spring.



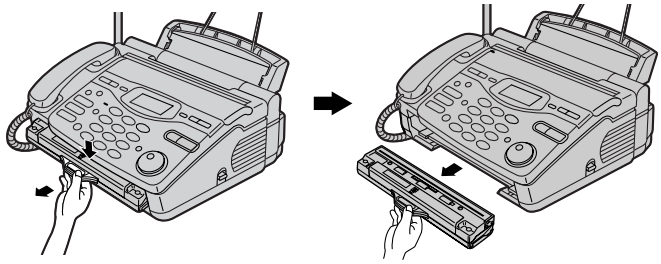
Connect the main unit



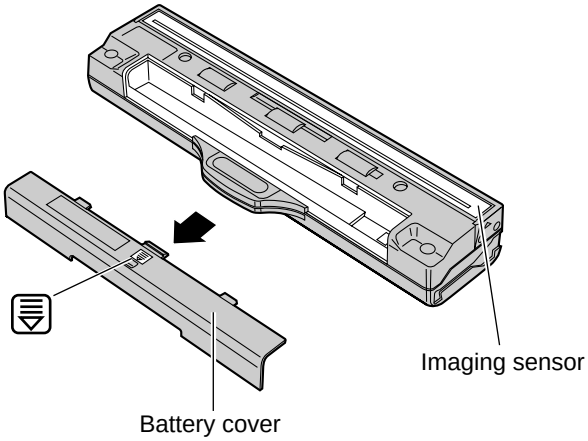
Telephone line selection (pulse or tone) will start automatically.

Charge the Hand scanner battery

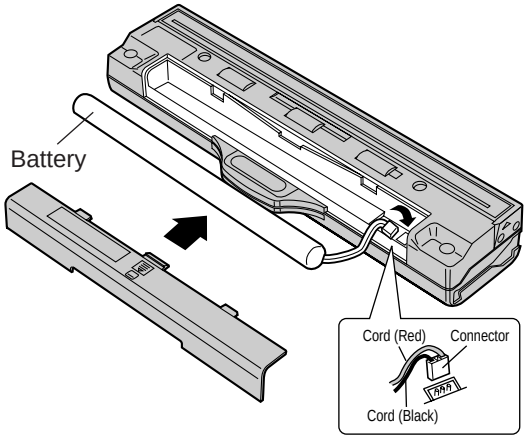
1 Pull out the Hand scanner.



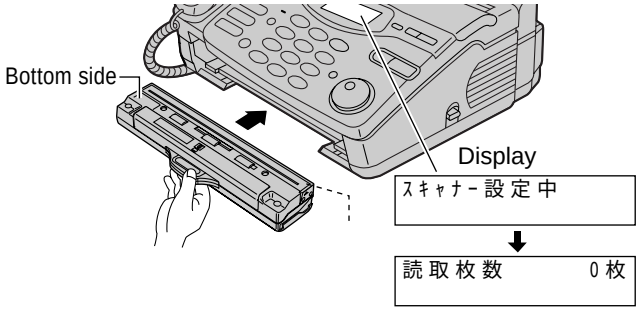
2 Slide open the battery cover by slightly pushing ▤ part.



3 Connect the battery to the Hand scanner.

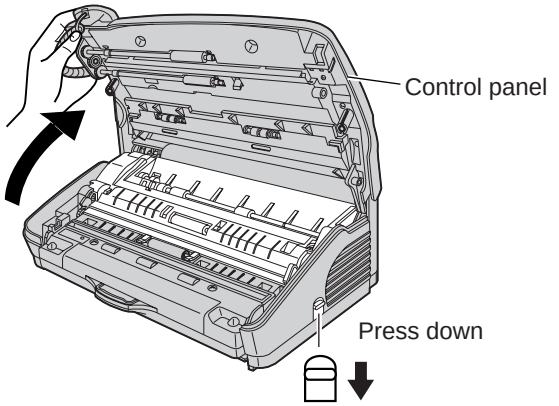


4 Insert the Hand scanner.

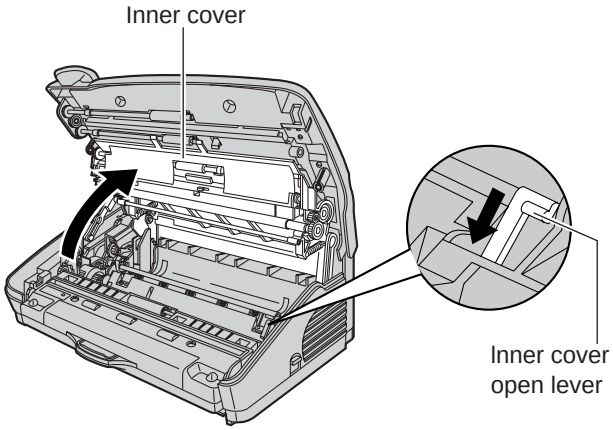


Installing the Plain paper

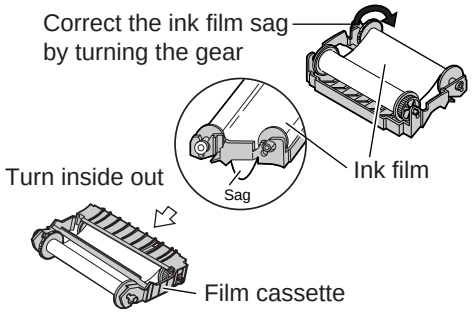
1 Open the Control panel by pressing down the Control panel open button.



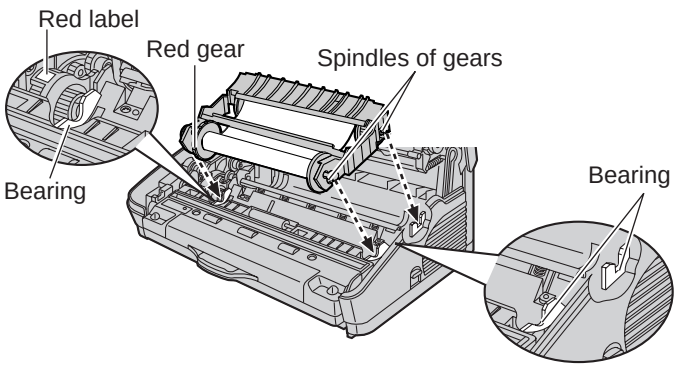
2 Open the Inner cover by sliding down the Inner cover open lever.



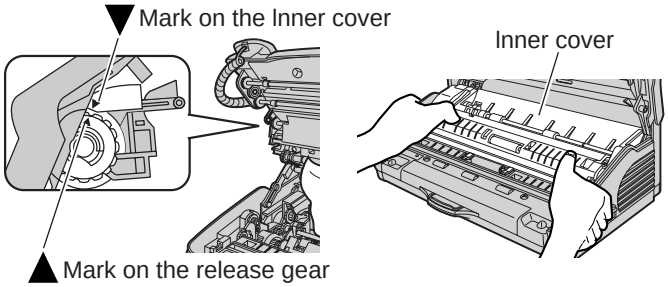
3 Prepare the Film cassette.



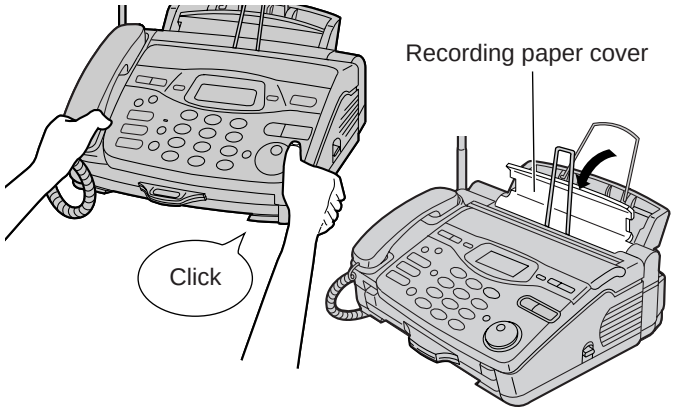
4 Put the Film cassette in the Main unit.



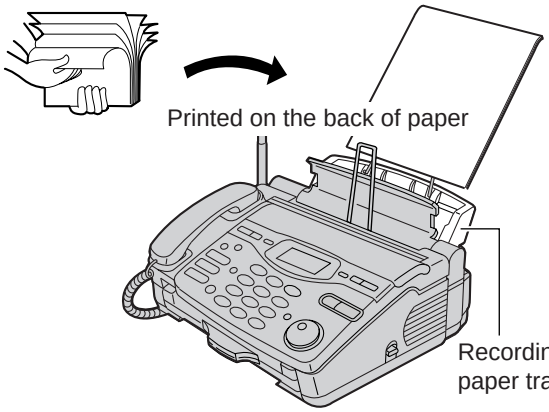
5 Make sure that mark point on the Release gear is correct, and then close the Inner cover.



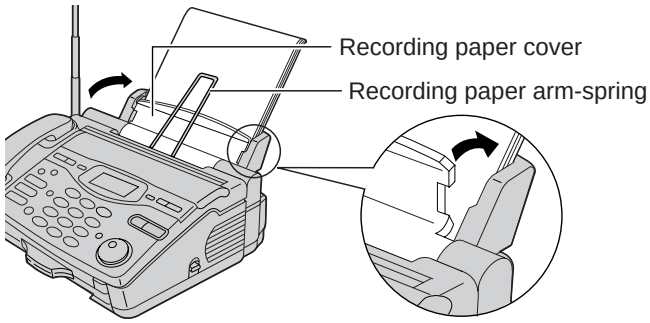
6 Close the Control panel and open the Recording paper cover.



7 Fan the stack of paper to prevent a paper jam, and then insert the paper.

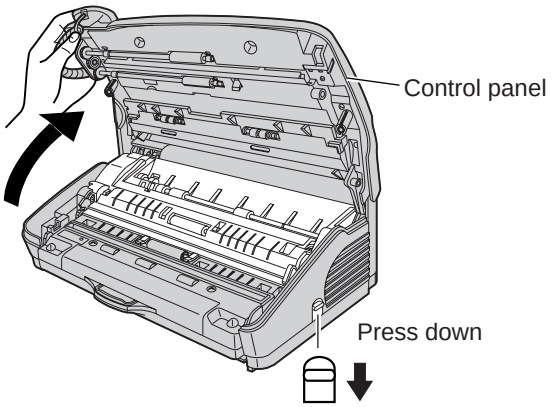


8 Throw down the Recording paper cover and Recording paper arm-spring.

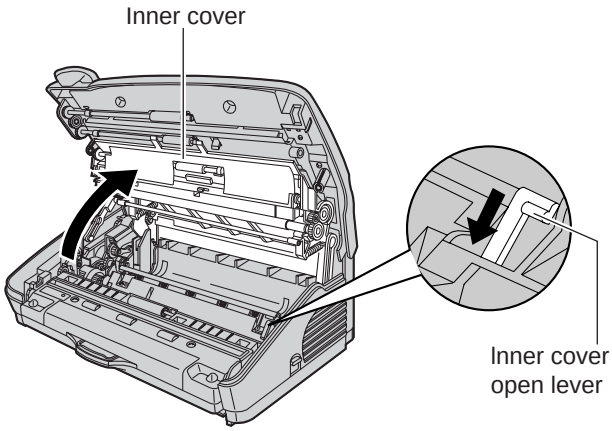


Installing the Thermal paper

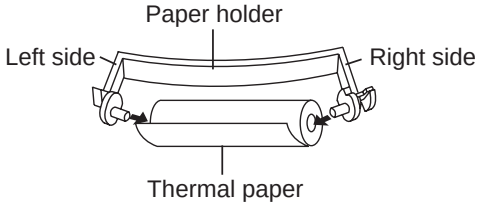
1 Open the Control panel by pressing down the Control panel open button.

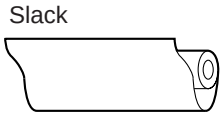


2 Open the Inner cover by sliding down the Inner cover open lever.



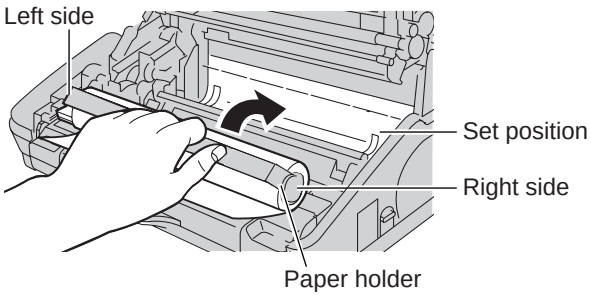
3 Put the Thermal paper to the Paper holder by spreading the Paper holder.



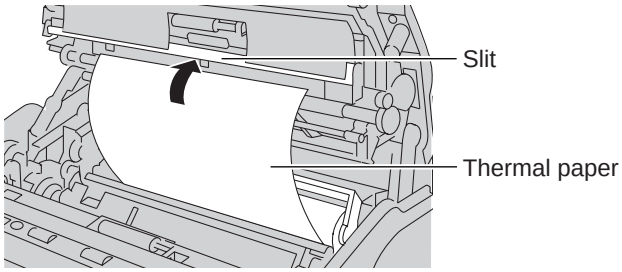


If the thermal paper has a slack, tighten it by winding.

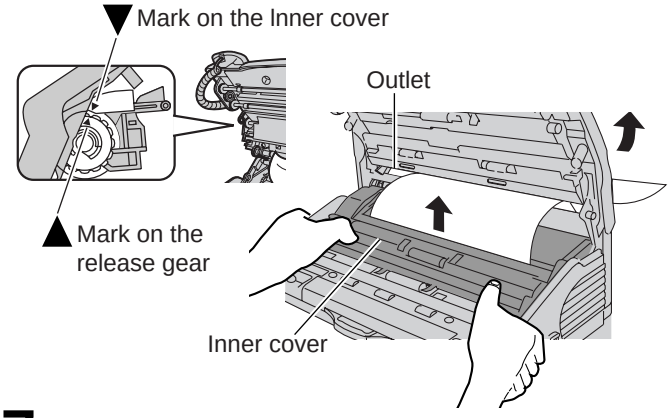
4 Put the Paper holder in the set position of the Main unit.



5 Insert the Thermal paper to the slit of Inner cover.



6 Make sure that mark point on the Release gear is correct, and then close the Inner cover and pull out the Thermal paper (approx. 5cm) through the outlet for recording paper.

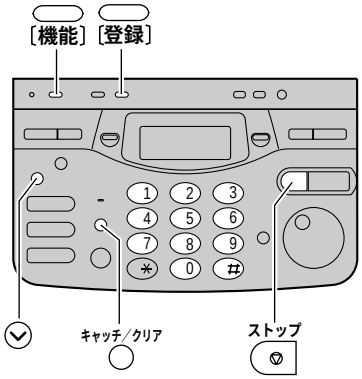


7 Close the Control panel

Setup (Setting date and time, your facsimile telephone number and logo)

You can program the date and time, your facsimile telephone number and logo.
This information will be printed on each page transmitted from your unit.

Setting date and time



1 Press [機能] .

Display :

```
機 能 登 録 ﾓｰﾄﾞ
```

2 Press ＃ , then ⓪⓪① .

```
1999年01月01日
        [登録]
```

Cursor

3 Enter the correct year/month/day using the dial keypad.

Example: Sept. 10, 1999

Press ①⑨⑨⑨ ⓪⑨ ①⓪

```
1999年09月10日
        [登録]
```

4 Press [登録] .

```
時刻 00：00
        [登録]
```

5 Enter the correct hour/minute by selecting 2 digits for each, using the dial keypad.

Example: 15:45

1. Press ①⑤ ④⑤

```
時刻 15：45
        [登録]
```

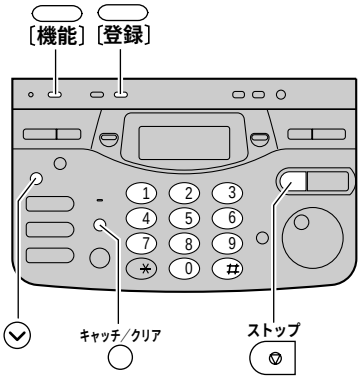
6 Press [登録] .

```
登録しました
```

7 Press ストップ .

```
 9月10日 15：45
用件録音     00件
```

Setting your facsimile telephone number



1 Press [機能] .

Display :

```
機 能 登 録 ﾓｰﾄﾞ
```

2 Press ＃ , then ⓪⓪④ .

```
TEL=.........
```

Cursor

3 Enter your facsimile telephone number, up to 20 digits, using the dial keypad.

Example :

```
TEL=98 765 4321.
```

4 Press [登録] .

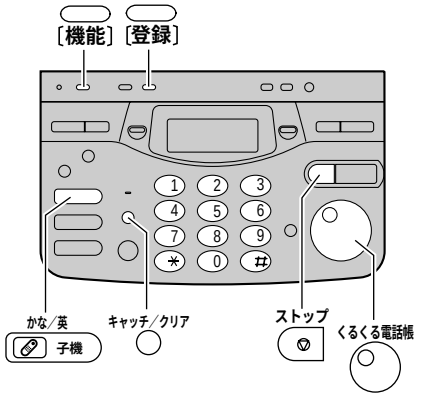
```
登録しました
```

⬇

```
TEL=098 765 4321
```

5 Press ストップ .

Setting your logo



1 Press 〔**機能**〕.

Display : 機能登録ﾓｰﾄﾞ

2 Press ♯, then ⓪⓪②.

名前（印字用）?
>_

3 Press かな/英 子機 repeatedly to choose the **「英」**(English) character.

「かな」(Hiragana) ←
↓
「カナ」(Katakana)
↓
「英」 (English)
↓
(Numbers) →

4 Enter your logo, up to 30 characters, using the dial keypad. See the table below for details.

Example: Micah

1 Press ⑥ once

M
Cursor

2 Press ④ six times.

Mi

3 Press ② six times.

Mic

4 Press ♯ to move the cursor to the next space and press ② four times.

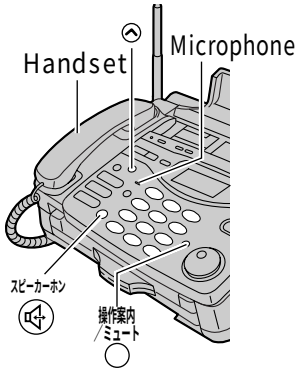
1 Making/Answering voice calls



Making calls

1. Lift the handset or press スピーカーホン (speakerphone).
2. Dial the telephone number.
3. Talk to the other party.
4. When finished, replace the handset or press スピーカーホン.

Answering calls

1. When the phone rings, lift the handset or press スピーカーホン.
2. Talk to the other party.
3. When finished, replace the handset or press スピーカーホン.

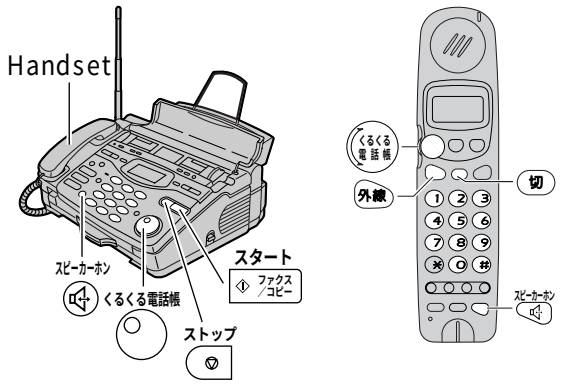
Note:

When a slow beep or no sound is heard, press スタート ファクス/コピー (start/copy) and replace the handset.

The unit will start fax reception.

2 Automatic dialing

Main unit **Portable handset**



Automatic dialing with the main unit

1. Rotate くるくる電話帳 (search dial) until the name you want to dial appears on the display.
2. Lift the handset or press スピーカーホン (speakerphone).
3. Talk to the other party.
4. When finished, replace the handset or press スピーカーホン.

Automatic dialing with the portable handset

1. Rotate くるくる電話帳 (search dial) until the name you want to dial appears on the display.
   - If the name has not been stored, press 切 (end) and store the name, or dial the number manually.
2. Press 外線 (outside line) or スピーカーホン (speakerphone).
   ➡ The number will be dialed.
   - The last 12 digits (including spaces) will be displayed.
3. Talk to the other party.
4. When finished, press 切.

Storing a phone number in the main unit

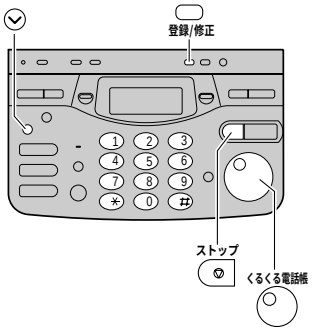
1. Press 登録/修正 (telephone directory store/edit).
2. Enter the station name, up to 12 characters, using the dialing buttons.
3. Press 登録/修正 登録/修正.
4. Enter the phone number up to 30 digits.
5. Press 登録/修正.
   – To program other stations, repeat from step 2.
6. Press 登録/修正.
7. Enter the group number (1-9).
8. Press 登録/修正.

Storing a phone number in the portable handset

1. Press 登録/修正・確定 (store/edit/decide).
   - xx will show how many items can still be stored.
2. Use the dial buttons to enter the desired name, up to 12 characters.
   - If you do not want to store a name, go to step 3.
3. Press 登録/修正・確定.
4. Use the dial buttons to enter the phone number, up to 30 digits.
   Press 音量 (volume) to insert a space.
   - If you enter a wrong number, press キャッチ/クリア (clear).
   - If you enter 12 or more digits (including spaces), numbers will disappear from the screen from the left.
5. Press 登録/修正・確定 (store/edit/decide).
   - To enter a 2nd or 3rd number, repeat from step 4.

6. Press 登録/修正・確定 .
   - If you do not want to enter a group number, go to step 8.
     (If a group number is not entered, the numbers will be stored in group 1.)
7. Enter a group number (1-4) if required.
8. Press 登録/修正・確定 .
   - To continue storing, repeat from step 2.
   - To end storing, press 切 (end).

Changing a stored name or number

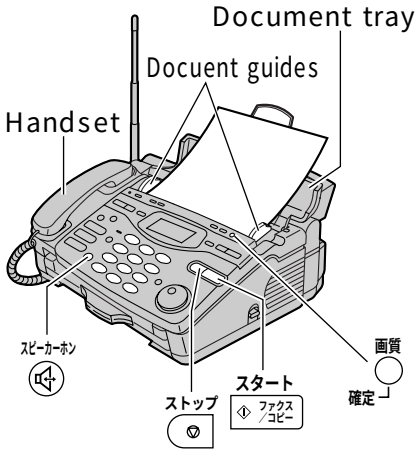


1. Rotate くるくる電話帳 (search dial) until the name you want to change appears on the display.
2. Press 登録/修正 (telephone directory store/edit).
3. Press ✱.
4. Press # or ✱ to move the cursor to the incorrect character, and make the correction.
5. Press 登録/修正 登録/修正.
6. Enter the correct phone number.
7. Press 登録/修正 .
8. Press 登録/修正 repeatedly until the group number is displayed.
   Example: Group number=1

   ```
   ｸﾞﾙｰﾌﾟ=1
   [1-9,登録]
   ```

9. Enter the correct group number.
10. Press 登録/修正.

1 Sending documents

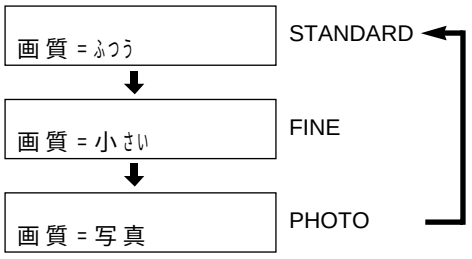


Sending documents manually

1. Open the document tray and adjust the document guides.
2. Insert the document FACE DOWN until a beep is heard (up to 5 sheets at a time).
3. Press 画質 確定 (resolution) to select the resolution.
4. Lift the handset or press スピーカーホン (speakerphone).
5. Dial the fax number.
6. When a fax tone is heard, press スタート ファクス/コピー (start/copy).
7. Replace the handset.
   – The unit will start fax transmission.

Selecting the resolution

Press 画質 確定 (resolution).

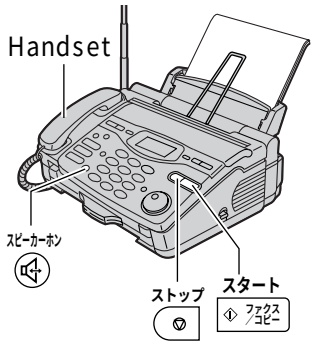


Sending documents using automatic dialing

1. Open the document tray and adjust the document guides.
2. Insert the document FACE DOWN until a beep is heard (up to 5 sheets at a time).
3. Press 画質 確定 (resolution) to select the resolution.
4. Rotate くるくる電話帳 (search dial) until the name you want to send documents appears on the display.
5. Press スタート ファクス/コピー (start/copy).
   – The unit will start fax transmission.

Facsimile Operations

2 Receiving documents



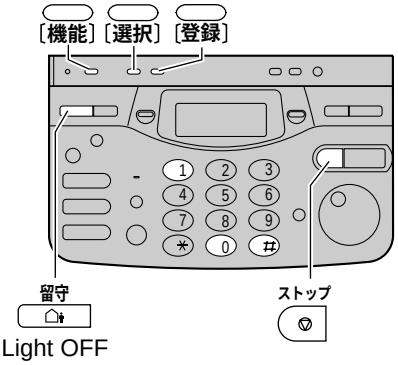
Receiving documents manually

1. When the unit rings, lift the handset or press スピーカーホン (speakerphone) to answer the call.
2. When:
   – document reception is required,
   – a slow beep is heard, or
   – no sound is heard,
   press スタート ファクス/コピー (start/copy).
3. Replace the handset if using it.
   – The unit will start fax reception.

Setting the Answer Mode

This unit has five Answer modes. Choose the desired mode according to your needs. Press 留守 (auto answer) to switch between manual answer and auto answer modes.

1 Manual answer mode



Light OFF

Telephone mode (電話優先)
When you want to answer all calls manually. After answering the call, press the start button for fax reception.

Facsimile/Telephone mode (FAX優先)
When you want to answer voice calls but do not want to be disturbed by fax calls.
If no one answers the call, the unit will receive the documents automatically. Or you can answer the call and press the start button for fax reception.

Setting the Answer Mode

1. Press [機能] (function).

```
機能登録ﾓｰﾄﾞ
```

2. Press #①①⓪ .

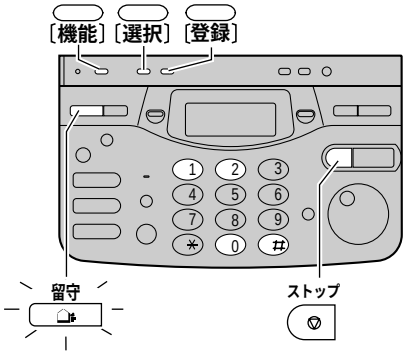
```
在宅=FAX優先
   [選択,登録]
```

or

```
在宅=電話優先
   [選択,登録]
```

3. Press [選択] (select) to select the Telephone mode (電話優先) or Facsimile/Telephone mode (FAX優先).
4. Press [登録] (register).
5. Press ストップ (stop).

2 Auto answer mode



Light ON

Answering machine/Facsimile mode (FAX/留守電)
When you want to use the unit to record voice messages and receive documents.
When a call is received, the unit plays your greeting message and records the voice message.
If a fax is detected, the unit receives the documents automatically.

Facsimile mode (FAX専用)
When you want to use the unit solely as a fax machine.
The unit receives documents automatically. You cannot answer voice calls and the answering device will not function.

Answering machine mode (留守電専用)
When you want to use the unit to record voice messages only.
The unit will not receive documents automatically.

Setting the Answer Mode

1. Press [機能] (function).
2. Press #①②⓪.

機能登録ﾓｰﾄﾞ

↓

留守=FAX専用
[選択,登録]

or

留守=留守電専用
[選択,登録]

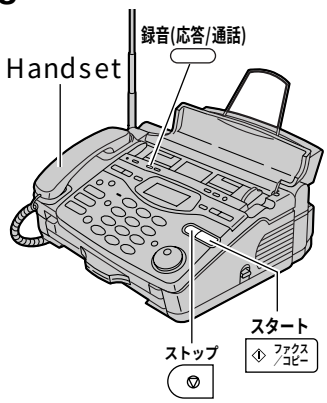
or

留守=FAX/留守電
[選択,登録]

3. Press [選択] (select) to select the Facsimile mode (FAX専用) or Answering machine mode (留守電専用) or Answering machine/Facsimile mode (FAX/留守電).
4. Press [登録] (register).
5. Press ストップ (stop).
6. Press 留守 (auto answer). → light ON

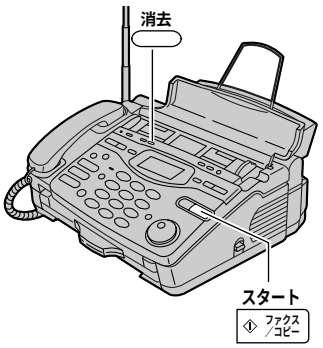
Answering Device Functions

1 Recording your own greeting message



1. Press 録音(応答/通話) (record).
2. Lift the handset.
3. Press スタート (start/copy).
4. Record your greeting message up to 16 seconds.
5. Press ストップ (stop) and replace the handset.
   – The greeting message will be played back once automatically.

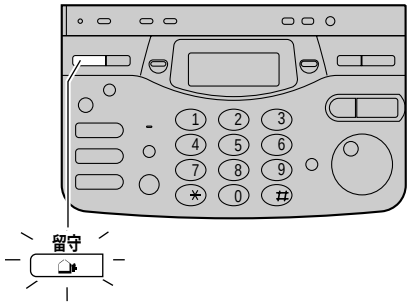
2 Erasing the greeting message



Answering Device Functions

1. Press 消去 (erase) two times.
2. Press スタート (start/copy).

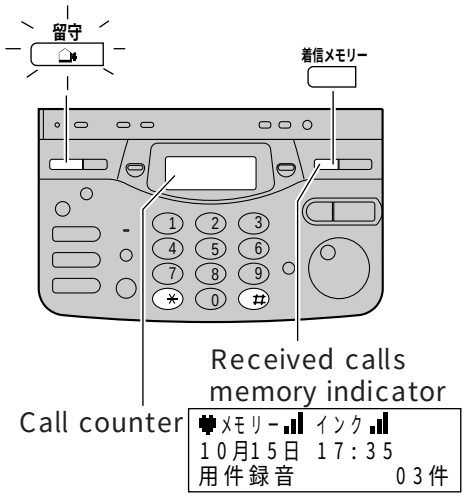
3 Setting up the automatic answering device



Press 留守 (auto answer). → light ON

- To cancel the automatic answering device mode, press 留守 (auto answer) again. → light OFF

4 Listening to recorded messages



Press 留守 (auto answer) or 聞き直し (replay). → light ON

5 Erasing recorded messages

To erase all the recorded messages

1. Press 消去 (erase).
2. Press スタート (start/copy).

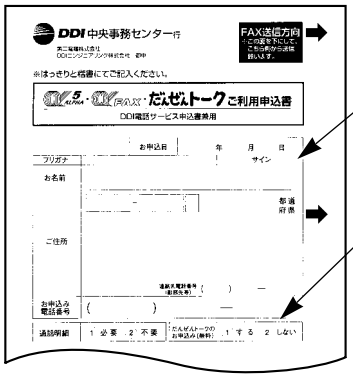
To erase a specific message

1. Press 消去 (erase) while listening to the message you want to erase.
2. Press スタート (start/copy).

Using E-mail

1 How to Subscribe

Send the enclosed "α-ALPHA5 · α FAX service application form" to DDI Central Office by fax.
FAX number: 0077-2322-9555 (24 hours)
This application form must be completed for use of α-APLHA5 (Not required if application was made at place of purchase).



The layout of the application form may change.

How to fill in the form

Fill in your name, address and telephone number.

The detailed call charge list is available free of charge.
If you wish to receive the list, circle ①.
If not, circle ②.

Note

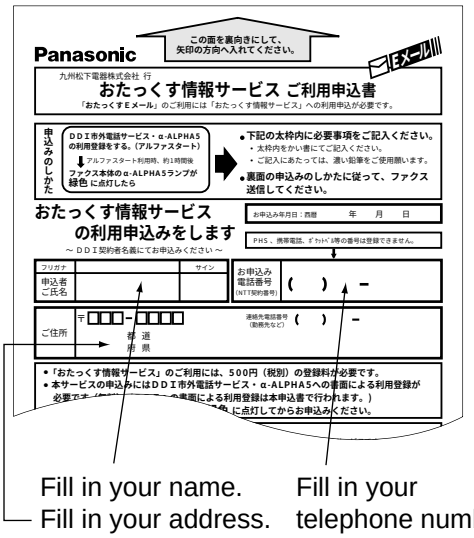
- If you use NTT's dialin or double number service, register your contract number with DDI.

● Please contact DDI Customer Service Center in the following situations

- If you are already using DDI.
- If you are using another telephone company (including local companies) other than NTT.
- If you are using a discount service with NTT or another telephone company (inducing local companies).

2 Make sure the α-ALPHA5 indicator light is green, fill in the application form and send it by fax.

1. Filling in the application form.



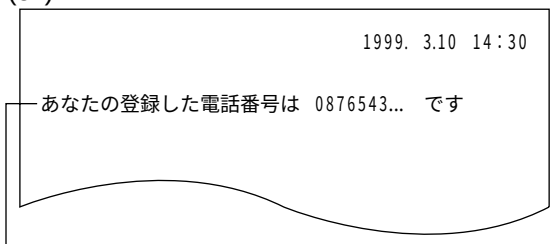
Fill in your name.
Fill in your address.
Fill in your telephone number.

- Use the name of the person registered with DDI.
  The layout of the application form may change.

2. Follow the procedure for "User Registration".

3. The unit will automatically connect to the e-mail server and transmit the necessary information for registration.

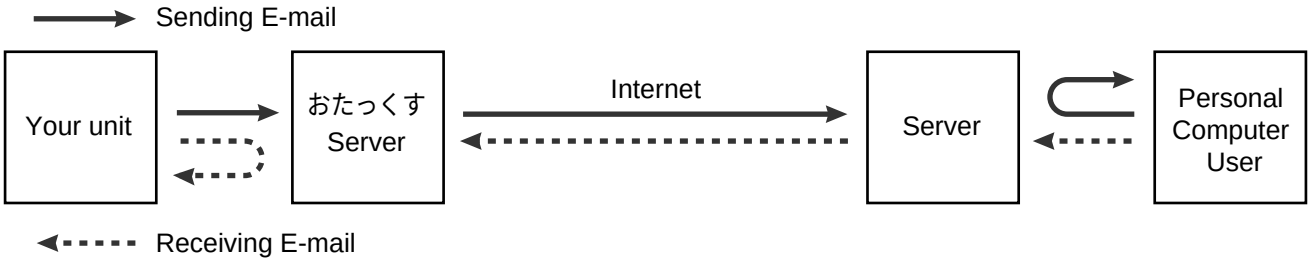
4. When communication is complete, a report, as below, will automatically be printed out.
   ➡ Please check that the registered telephone number is correct.
   (ex)



Your registered telephone number is 0876543...

3 How E-mail works

Using this unit, you can exchange E-mail with personal computer users all over the world.
You can send or receive messages using the server's "mail box".



● When you register with おたっくすInformation Service, the following E-mail address (example) will be supplied.

p××××ΔΔΔΔ@fem.dion.ne.jp

User name: Personal number supplied by Kyushu Matsushita Electric.

Domain name: Common number to おたっくすInformation Service users.

4 Before using this feature

● You have to register with DDI "α-ALPHA5" and Kyushu Matsushita Electric's "おたっくす Information Service". (See "1, 2" on page 14.)

● **Charges:**

Registration fee	¥500 (tax not included)
Call fee	¥10 per 1 minute (8:00am–11:00pm) ¥8.5 per 1 minute (11:00pm–8:00am)
Information service fee	¥5 per 30 seconds

You can do the following! (Telephone charges and information charges applicable)

●**Fax e-mail transmission :** You can send a fax as an e-mail message to a PC (with TIFF viewer) or おたっくす fax machine (data will be in TIFF format).

●**E-mail text transmission :** You can send e-mail messages entered using the dial buttons (data will be sent in text format).

●**E-mail reception :** You can print out e-mail messages (If there are no messages, you will only be charged for the telephone call).

●**E-mail not yet downloaded :** You can print out information about e-mails which have not yet been downloaded (telephone call charge only).

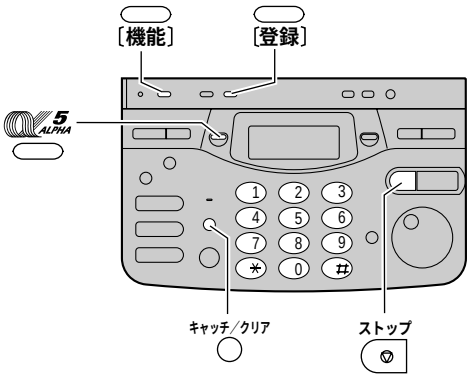
●**Checking number of e-mails not yet downloaded :** At pre-set intervals you can automatically connect to the server and check the number of e-mails. (You will only be charged for the telephone call. However if you receive e-mail at the same time, an information charge will be applicable.)

●**Extension functions :** You can carry out each operation following the voice guidance.
New services planned for the future.

●**Storing e-mail addresses :** You can store frequently used e-mail addresses (no charge). Up to 30

●**Storing domain names :** You can store frequently used domain names (no charge). Up to 10

5 Registering with α-ALPHA5



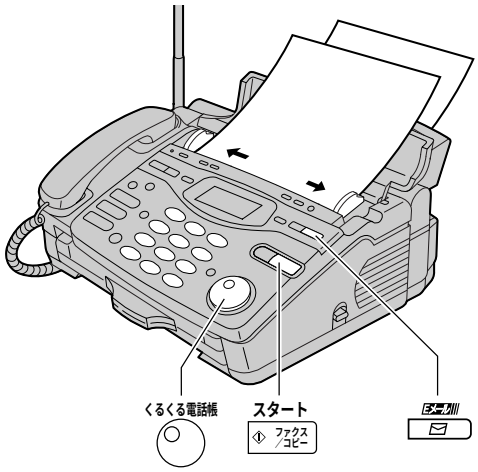
1. Fill in the "α-ALPHA5, α-FAXサービス利用申込書" application form and fax it to 0077-2322-9555. (See "1" on page 14.)
2. Register your telephone number and tip code as follows.
   a. Press [機能] (function), then press 5 ALPHA.
   b. Enter your postal code.
   c. Press [登録] (register).
   d. Press ✳.
3. 1 minute later, the fax machine will automatically dial to DDI.
   • 2 or 3 weeks later, the α-ALPHA5 indicator will light up green.

6 Registering at おたっくす Information Service

Make sure the α-ALPHA5 indicator light is green.

1. Fill in the "おたっくす情報サービス利用申込書" application form. (See "2" on page 14.)
2. Press [機能] (function), then press E-mail (E-mail).
3. Press スタート ファクス/コピー (start/copy).
   ● The display will show the telephone number that has been registered at α-ALPHA5.
4. Press スタート ファクス/コピー (start/copy).
5. Set the application form on the fax machine.
6. Press スタート ファクス/コピー (start/copy).
7. 5 minutes later, a bell will ring and data communication will automatically start.
   ● If you have another call during data communication, hang up and wait for a while.
8. After the data communication, a user registration guide will be sent from the E-mail server.
   ● Please write down the E-mail address and security code sent from the server on the back cover of the operating instructions so as not to forget them.

7 Sending fax documents by E-mail



1. Open the document tray and adjust the document guides.
2. Insert the document FACE DOWN until a single beep is heard and select the resolution.
3. Press E-mail (E-mail), and then press スタート ファクス/コピー.
4. Enter the required E-mail address.
   ● Refer to the character list on page 9.
5. Press スタート ファクス/コピー (start/copy).
6. Enter the title (32 characters max.).
   ● Refer to the character list on page 9.
7. Press スタート ファクス/コピー (start/copy).

Note:

● To send E-mail to an address stored in memory (see "8" on page 17), perform steps 1 to 3 above, then follow these steps:
   4. Rotate くるくる電話帳 until the name you want to send to is displayed.
   5. Press スタート ファクス/コピー (start/copy).

8 Storing E-mail addresses

1. Press 〔機能〕 (function), and then prees .
2. Rotate (search dial) until the message “ｱﾄﾞﾚｽ帳登録” is displayed.
3. Press (start/copy).
4. Enter the name up to 12 characters.
   - Refer to the character list on page 9.
5. Press 登録/修正 (telephone directory store/edit) two times.
6. Enter the E-mail address up to 60 characters.
   - Refer to the character list on page 9.
7. Press 登録/修正 .
   - To program other E-mail addresses, repeat from step 4.
8. Press (stop).

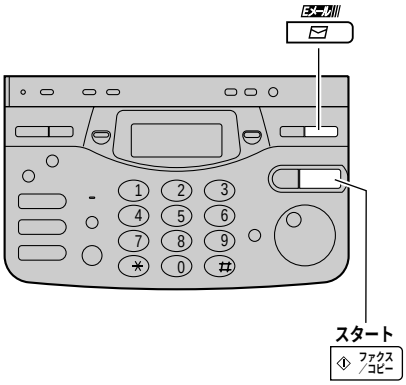
Note:

- Up to 30 addresses can be stored.

9 File formats you can receive

- JPEG
- TIFF
- BMP
- TXT
- ~. doc
- ~. xls
- ~. ppt
- ~. pdf

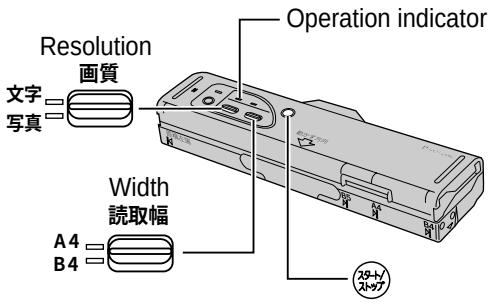
10 Receiving E-mail



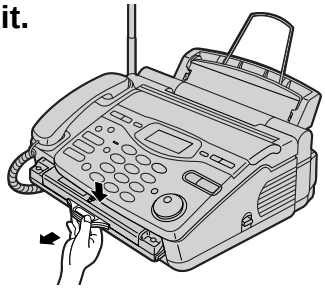
1. Press (E-mail).
2. Press (start/copy).

Using Hand Scanner

Scanning a document



1 Pull out the Hand scanner, and then turn over it.



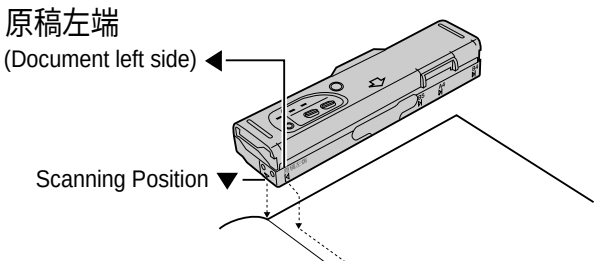
2 Choose the desired resolution by Resolution switch.

- Resolution types
  文字 (Letter: For documents of letters)
  写真 (Photo: For documents containing photographs, etc.)

3 Choose the desired Scanning width by Scanning width switch.

- Scanning width types
  A4 (Within 208mm)
  B4 (Within 252mm)

4 Place the scanning position and the 原稿左端 (document left side) on the document.

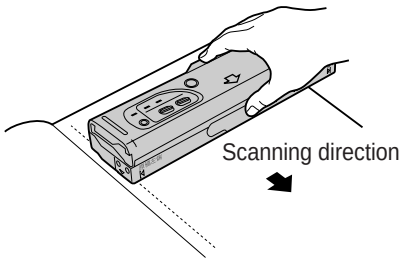


5 Press (スタート/ストップ)

- You will hear a beep, and the operation indicator will light green after about 1 or 2 seconds. You can start scanning after the operation indicator lights green.

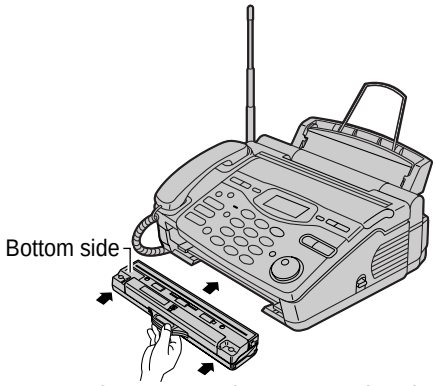
6 Press the hand scanner against the document, and move it slowly towards the direction of the arrow (⇩).

- When it is scanning properly, the operation indicator will flash green.
- Scanning speed for different resolution types, see “Operation indicator and warning beep” of the next page.

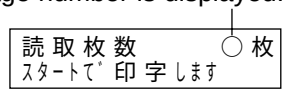


7 After scanning the document, press (スタート/ストップ).

8 Insert the hand scanner in the Main unit.



The scanned page number is displayed.



Scanner Memory capacity

Resolution switch	Scanning Speed	Capacity
Letter 「文字」	50mm/1 sec	Apprx. 10 pages (document paper size-A4, 700 letters)
	100mm/1 sec	Apprx. 20 pages (document paper size-A4, 700 letters)
Photo 「写真」	—	Apprx. 1 pages (document paper size-A4, photo)

Operation indicator and warning beep

When scanning documents, check the operation indicator light.

Operation Indicator	Warning Beep	Situation	Remedy
Green light Slow flash	No beep	The document is being scanned properly. (Small size letter mode)	
Green light Fast flash	No beep	The document is being scanned properly. (Normal size letter mode)	
Green light ON	No beep	The hand scanner is temporarily stopped during scanning. You did not move the hand scanner for more than 30 seconds, so it has stopped scanning automatically.	To start scanning again, press スタート/ストップ .
Red light ON	No beep	The hand scanner is being moved quickly. (The document is being scanned.)	Move it more slowly.
Red light ON	1 beep	The hand scanner is being moved too quickly. (Some parts of the document may not be scanned, or the scanned contents may be too compressed.)	Move it more slowly.
Light OFF	3 beep	The scanner memory is full. (Memory indicator green light will flash fast.)	Delete the contents memorized in the scanner (see 22 page).
		You have scanned a document that is more than 1.5m in length as 1 page.	Scan the document as 2 pages or more.
Light OFF	No beep	The scanner is not operated.	

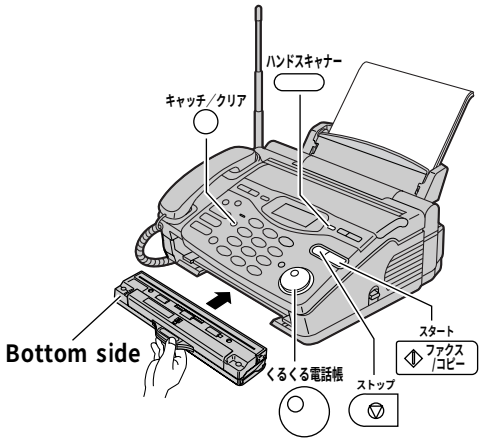
Memory indicator

Shows the amount of scanner memory being used.

Memory indicator (green light)	Memory used
OFF	0%
ON	～66%
Flash slow	～99%
Flash fast	100%

Using Hand Scanner

Printing all pages of memorized content



1 **Insert the Hand scanner in the Main unit or press ハンドスキャナー .**

Example: 10 pages

```
読取枚数        10枚
ｽﾀｰﾄﾃﾞ印字します
```

The scanned page number is displayed.

2 **Press スタート ファクス/コピー .**

Printing is started.

```
印字中          1枚目
```

Printing a specific page of memorized content

1 **Insert the Hand scanner in the Main unit or press ハンドスキャナー .**

(Example: 10 pages)

```
読取枚数        10枚
ｽﾀｰﾄﾃﾞ印字します
```

The scanned page number is displayed.

2 **Rotate くるくる電話帳 until**

```
ﾍﾟｰｼﾞ指定印字
        [ｽﾀｰﾄ]
```

is displayed.

3 **Press スタート ファクス/コピー .**

```
開始ﾍﾟｰｼﾞ=01
        [ｽﾀｰﾄ]
```

4 **Enter the number of the first page that you want to print using 2 digits.**

Example: page 7

```
開始ﾍﾟｰｼﾞ=07
        [ｽﾀｰﾄ]
```

When you have misentered, press キャッチ/クリア and reenter.

5 **Press スタート ファクス/コピー .**

```
終了ﾍﾟｰｼﾞ=07
        [ｽﾀｰﾄ]
```

6 **Enter the number of the last page that you want to print using 2 digits.**

Example: page 10

```
終了ﾍﾟｰｼﾞ=10
        [ｽﾀｰﾄ]
```

When you have misentered, press キャッチ/クリア and reenter.

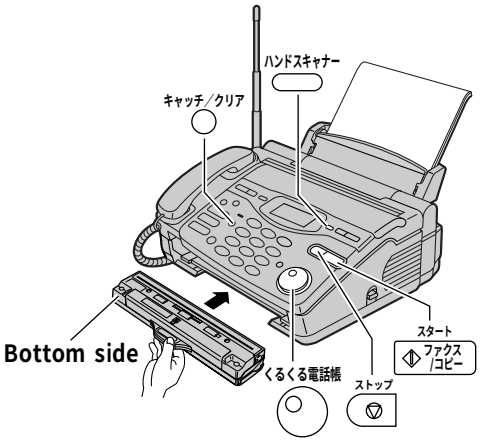
7 **Press スタート ファクス/コピー .**

```
印字中          7枚目
```

(Example)

Printing will start.

Fax sending all pages of memorized content



1 **Insert the Hand scanner in the Main unit or press ハンドスキャナー .**

(Example: 10 page)

```
読取枚数        10枚
ｽﾀｰﾄﾃﾞ印字します
```

The scanned page number is displayed.

2 **Rotate くるくる電話帳 until**

```
一括送信
[ｽﾀｰﾄ]
```

is displayed.

3 **Press スタート ファクス/コピー .**

```
番号？
```

4 **Dial the fax number.**

(Example: 09876543..)

```
09876543‥
```

5 **Press スタート ファクス/コピー .**

```
ｽｷｬﾅｰ送信      1枚目
```

The unit will start fax transmission.

Fax sending a specific page of memorized content

1 **Insert the Hand scanner in the Main unit or press ハンドスキャナー .**

(Example: 10 pages)

```
読取枚数        10枚
ｽﾀｰﾄﾃﾞ印字します
```

The scanned page number is displayed.

2 **Rotate くるくる電話帳 until**

```
ﾍﾟｰｼﾞ指定送信
[ｽﾀｰﾄ]
```

is displayed.

3 **Press スタート ファクス/コピー .**

```
開始ﾍﾟｰｼﾞ=01
[ｽﾀｰﾄ]
```

4 **Enter the number of the first page that you want to print using 2 digits.**

Example: page 7

```
開始ﾍﾟｰｼﾞ=07
[ｽﾀｰﾄ]
```

If you make a mistake, press キャッチ/クリア and reenter.

5 **Press スタート ファクス/コピー .**

```
終了ﾍﾟｰｼﾞ=07
[ｽﾀｰﾄ]
```

6 **Enter the number of the last page that you want to print using 2 digits.**

Example: page 10

```
終了ﾍﾟｰｼﾞ=10
[ｽﾀｰﾄ]
```

7 **Press スタート ファクス/コピー .**

```
番号？
```

8 **Dial the fax number.**

(Example: 09876543..)

```
09876543‥
```

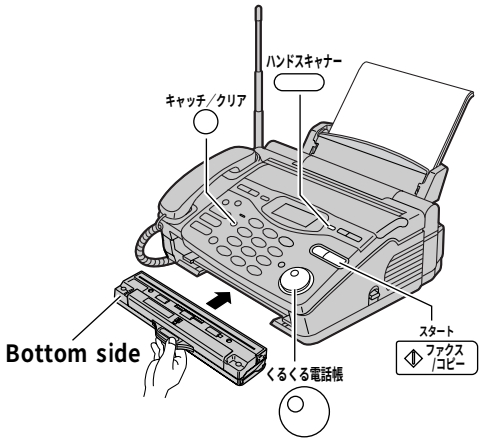
9 **Press スタート ファクス/コピー .**

```
ｽｷｬﾅｰ送信      7枚目
```

The unit will start fax transmission.

Using Hand Scanner

Deleting all pages of memorized content



1 Insert the Hand scanner in the Main unit or press ハンドスキャナー .

Example: 10 pages

```
読取枚数        10枚
ｽﾀｰﾄﾃﾞ印字します
```

The scanned page number is displayed.

2 Rotate くるくる電話帳 until

```
一括消去
[スタート]
```

is displayed.

3 Press スタート ファクス/コピー .

```
消去しました
```

⬇

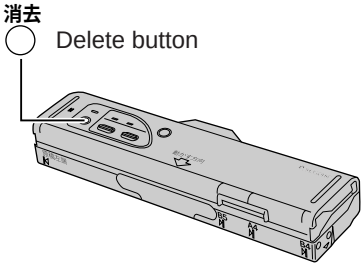
```
読取枚数        0枚
```

Deleting a last page of memorized content

1 Press 消去 until beep is heard.

(Approx. 2 sec)

- The last page will be delete.



Deleting a specific page of memorized content

1 Insert the Hand scanner in the Main unit or press ハンドスキャナー .

Example: 10 pages

```
読取枚数        10枚
ｽﾀｰﾄﾃﾞ印字します
```

The scanned page number is displayed.

2 Rotate くるくる電話帳 until

```
ﾍﾟｰｼﾞ指定消去
[スタート]
```

is displayed.

3 Press スタート ファクス/コピー .

```
開始ﾍﾟｰｼﾞ=01
[スタート]
```

4 Enter the number of the first page that you want to delete using 2 digits.

Example: page 7

```
開始ﾍﾟｰｼﾞ=07
[スタート]
```

When you have misentered, press キャッチ/クリア and reenter.

5 Press スタート ファクス/コピー .

```
終了ﾍﾟｰｼﾞ=07
[スタート]
```

6 Enter the number of the last page that you want to delete using 2 digits.

Example: page 10

```
開始ﾍﾟｰｼﾞ=10
[スタート]
```

When you have misentered, press キャッチ/クリア and reenter.

7 Press スタート ファクス/コピー .

Deleting will start.

```
消去しました
```

⬇

```
読取枚数        6枚
ｽﾀｰﾄﾃﾞ印字します
```

Specifications

(KX-PW55CL)	Main unit	Portable Handset	Battery Charger	Hand scanner
Power supply	AC 100V (50Hz/60Hz)	Ni-Cd battery (Part no. KX-FAN37) DC 2.4V 600mAh	AC Adaptor (Part no. PFAP1009) AC 100V(50Hz/60Hz) Output(DC7.5V 100mA)	Ni-Cd battery (Part no. KX-FAN36) DC 4.8V 600mAh)
Power Consumption	Transmission: Approx. 20W Reception: Approx. 24W Copy: Approx. 25W Stand by: Approx. 3.6W Maximum(*1): Approx. 130W		• Charging: Approx. 1.1W • Stand by: Approx. 0.4W	
Dimensions (H x W x D)	• Without projection. (Approx. 161x336x283mm) • Document paper try open and without projection. (Approx. 185x336x283mm) • With recording paper sub-tray. (Approx. 233x336x378mm)	Approx. 190x47x40mm	Approx. 72x72x90mm	• Without projection. Approx.40x275x83mm
Mass (Weight)	Approx. 4.4Kg With the ink film (20m).	Approx. 182g With the battery.	Approx. 77g	Approx. 452g With the battery.
Operating Environment	5°C – 35°C, 45% – 85%RH (Relative Humidity)			

(KX-PW55CL)	Main unit	Hand scanner
Applicable line	Telephone line (tone/pulse)	
DC Resistance	320Ω (*2)	
Compatibility	G3 compatible	
Document size	B4-A5 (Max.257mm in width, Max. 800mm in length)	
Effective Scanning size	252mm (B4) 208mm (A4)	Max. 252mm (B4)
Effective Printing size	206mm (A4 Letter size thermal paper) role type 202mm (A4 Plain paper)	
Transmission time	Approx. 15s/page (Original mode) (*3)	
Modem speed	9600/7200/4800/2400bps; Automatic fallback	
Halftone Level	64-level	
Scanning Density	Horizontal: 8 pels/mm Vertical: 7.7 lines/mm – Fine. 3.85 lines/mm – Standard	Horizontal:8 pels/mm Vertical: 7.7 lines/mm
Scanner type	CCD image sensor	
Printer type	Thermal printing	
Data Compression System	Modified Huffman (MH), Original	
Recording paper Size	A4 Letter size thermal paper (Role type) 216mmx30m (Spindle diameter: approx. 13mm.) A4 Plain paper (210mmx297mm)	
Answering Device	Greeting message: Digital recording system (up to 16 sec) Pre-recording greeting message ICM Recording: Digital recording system (Approx. 18 min. in total)	
Memory Capacity	Max. Approx. 50 pages (Only receiving fax etc.) (*4) Max. Approx. 18 min. (Only Recording message)	20 pages Text (Standard) (*5) 10 pages Text (Fine) (*5) Approx. A4 1 page (Photo)

*1 When copying a 100% black document.
*2 If you can not make a voce call due to 320Ω of DC resistance, consult your dealer.
*3 The transmission speed is based on an A4-size document of 700 characters sent in standard resolution at 9600 bps.
*4 Number of page is based on an A4-size document of 700 characters received in standard resolution (8 pels/mm x 3.85 line/mm).
*5 The memory capacity is based on an A4-size document of 700 characters.
